1

Comment. Information on shipments by GDR hydrogenation plants to the Soviet Army has been obtained for the first time. The following is a tabulation of the number of carloads dispatched:

	Leuna	Troeglinz	Boehlen	Lustzkendorf
May	363	57	10	11
June	328	61	176	12

The numerous small shipments are of interest. They seem to confirm the assumption that, at an increased rate, shipments from the East German production are dispatched directly to consumers rather than through large GSFG fuel depots.
